

# The American Community Survey

## on the Road

Come learn about how to get involved in “everything census.”

Join New York Law School, New York Counts, the Population Reference Bureau, New York City Planning Department, and the U.S. Census Bureau to learn how different data users in New York City use American Community Survey (ACS) data. We will conclude with small breakout sessions where you will have the opportunity to interact with Census Bureau staff and share what you need to better use ACS data in your own work.
